

STP - PAYMENT DEDUCTED BUT POLICY NOT ACTIVE

Issue:

Customer payment has been deducted, but the insurance policy is still showing as pending or inactive.

Resolution:

If the payment has been successfully deducted, the policy activation may still be processing. The customer should wait for the policy activation confirmation. Once the policy is activated, the policy document will be available.

If the policy remains inactive after the applicable processing period, the customer should contact customer support.

STP - POLICY DOCUMENT NOT RECEIVED

Issue:

Customer has successfully purchased a policy but has not received the policy document.

Resolution:

The customer can download the policy document from the policy section of the customer portal.

If the document is not available after policy activation, the customer should contact customer support.

STP - CLAIM STATUS NOT UPDATED

Issue:

Customer says their claim status has not been updated

Resolution:

The claim may still be under processing. The customer can check the latest claim status through the claims section.

If the status remains unchanged beyond the applicable processing period, contact customer support.

STP - PREMIUM PAYMENT FAILED

Issue:

Customer's premium payment failed.

Resolution:

The customer should verify the payment details and try the payment again.

If the payment continues to fail, contact customer support.
